1 Class diagram

In this document there's the class diagram for group F2a. Group members are: Einar Helgi Prastarson (personal ID number: 110287-2919), Hannes Pétur Eggertsson (240889-2939) and Sigurður Birkir Sigurðsson (120589-2539). Our project is to build an user interface for a fantasy football game. In our class diagram we felt it made sense to split the classes into two categories, back-end classes and front-end classes.

1.1 Back-end classes

1.2 Front-end classes
